**Subject: Letter of Transmittal, RFP 21-980369 Florida Electric Transit Buses with Charging and Associated Equipment**

Dear Mr. Burns:

Proterra Operating Company, Inc. (Proterra) is pleased to submit this proposal to Pinellas Suncoast Transit Authority (PSTA) and excited about the opportunity to establish Proterra Battery Electric Buses (BEBs) and charging equipment on the Florida contract for Electric Transit Buses with Charging and Associated Equipment. We're excited to continue to work with transit agencies across Florida as they deploy BEBs in their fleets.

As North America's leading manufacturer of BEBs, Proterra is the only Heavy-Duty Bus Manufacturer who focuses solely on the design and manufacturing of BEB technology. Because we aren't tied to legacy heavy-duty bus platforms, we started with a clean sheet to design the world's best performing and safest purpose-built BEBs rather than re-purposing a conventional diesel, CNG or hybrid platform.

The 35' and 40' ZX5 BEBs proposed herein are Proterra's fifth generation BEBs and feature a more streamlined body design and a lower vehicle height that enables greater route access, as well as new shocks and enhanced ergonomics to provide riders and drivers with a smoother riding experience. The ZX5 is also optimized to allow optional overhead pantograph charging, offering greater flexibility and optionality for our transit customers. Additionally, the Proterra ZX5 features Proterra's advanced high-voltage battery systems, which have been proven on the road through more than 22 million miles in service for mass transit. Our battery systems are unrivaled in the North American transit industry and are further detailed in Tab 2 of the Technical Proposal.

Key Points of the Proposal

Since delivering our first BEB to Foothill Transit more than 10 years ago, Proterra has a demonstrable and proven track record in manufacturing BEBs for transit agencies across the United States. We are supporting deployments with major US transit agencies like New York City Transit and Chicago Transit Authority as well as deployments with much smaller agencies like Port Arthur Transit in Texas or Greater Portland Metro in Maine. We've also delivered BEBs to StarMetro in Tallahassee, LYNX in Orlando, Miami-Dade County, and Broward County.

For this proposal, Proterra is offering our 35’ and 40’ Proterra ZX5+ with 450kWh along with optional pricing for our ZX5 Max for the 40’ buses (not available on the 35’ buses); which has an industry leading range due to the size of the Energy Storage System (ESS) with 675 kWh of on-board energy storage.

For delivery, we are proposing delivery within twelve (12) months from the issuance of executed contract documents (NTP) with subsequent buses to follow based on the guidance contained in the RFP document.

The proposal pricing is valid for one hundred and eighty (180) days from the date of submittal.

Point of Contact for this Proposal

If you have any questions or concerns regarding this proposal, please feel free to contact individual below who is responsible for managing proposal related activities for Proterra’s PSTA proposal:

Devin Ikenberry
Sr. Business Engagement Manager
Proterra Inc

Burlingame, CA 94010
Phone: 256.499.5696
Email: dikenberry@proterra.com

Summary

Our goal at Proterra is to design, build, and deliver the world's best performing heavy- duty transit vehicles (that also happen to be zero-emission BEBs). We welcome the opportunity to provide detailed technical information about those vehicles to PSTA in this proposal.

Sincerely,

Ethan Carbaugh
Director of Business Engagement
Proterra Inc

PINELLAS SUNCOAST TRANSIT AUTHORITY (PSTA) RFP 21-98369

**SCHEDULE**

CAUTION: A false statement in any offer submitted to PSTA may be a criminal OFFENSE.

NOTE: For Invitations for Bids the terms "Offer" and "Offeror" shall mean "Bid" and "Bidder", respectively; and for Request for Proposals the terms "Bid" and "Bidder" shall mean "Offer" and "Offeror", respectively, in this solicitation and any associated exhibits.

**The rates include all costs that the offeror(s) intends to recover, such as, but not limited to: supervision, labor, equipment, materials, vehicle licensing, vehicle title, pick-up, financing, carrying charges, and all other such charges to accommodate the services and requirements. No price adjustments will be made, unless specifically provided for by an additional provision included in this contract.**
